

How to Assemble Greater Profits

Scaffolding Kits and Components

There's plenty of profit in scaffolding, especially when you work with Prolamsa.

Prolamsa offers rugged scaffolding made of high-strength steel tubing in 13- and 14- gauge

thicknesses. Available in standard components in 3', 4', 5' and 6'4" heights, and 3', 3'6" and 5' widths. All are powder coated in "safety" yellow. Attachment hardware (cross braces, coupling pins, drop locks) and shoring connections are also available.

Let us show you how we can help you assemble greater profits from scaffolding.
